Stats: 15 Greens, 13/14 Fairways, 30 Putts

Comments: Played solid, had good looks for birdie on every hole on the back 9. I cut 1/2" off my driver shaft and 3/8" off my 3-wood shaft which made a huge difference with my control off of the tee. Also pured the 3-wood shaft which really helped a lot. I found out a couple days ago that the 3-wood shaft was way off.

Positives: Drove the ball well and never 3-putted. My consistent practice is paying off. Was reminded to trust God and to stay committed to the process when I don't get the results I want.

Areas to Improve: Keep with my practice routines every day and give more attention to my fundamentals with my long irons.

Comments: Was windy all three days. I had strep throat all three days which was good experience to play when not feeling well.

Positives: Struck irons really well in the wind. Had stretches of great golf. Started badly but hung in there in the first round. Only lost by 4 shots.

Areas to Improve: Putting was not sharp - need to be more disciplined with my practice routines 6 days a week. Also, Driver and 3-wood are not working well. Need to adjust something with the shafts.

Comments: Tough day...I'm ready to move on to my next tournament! I'm glad I took 9 balls, because I lost 8 of them.

Positives: Kept as good an attitude as possible. Learned how a tough unfamiliar course can play totally different from day to day depending on conditions. I had 10 putts on the front 9. I played the course well in my practice rounds, but the course was soft in practice rounds with no wind.

Areas to Improve: I need to keep the ball in play off of the tee. I need to play in strong winds more often. 14 penalty strokes made scoring not very fun. I need to keep learning how to stay committed during my swings in the wind. 3-wood misses were really magnified in the wind.
